

YOU MUST HAND WRITE THESE ANSWERS!!

1. What are the main supergroups found in Domain Eukarya?
2. What is a protozoan?
3. Are some protozoans human pathogens? Which ones were discussed in the Powerpoint?
4. What is an algae?
5. What are the 3 types of motility found in protists?
6. What are microscopic algae called?

In order to do well on this exam and the lab practical, it would be good to make flashcards of the organisms discussed in the Powerpoint (learn the names, characteristics, be able to identify).
